Introduction

Our History

Establishing itself as brand in the Healthcare industry

An ISO 9001:2008 & ISO 27001:2013 Certified Company, operational since 2001. Personal attention of Managing Director & CEO in all the operations The minds behind the developments comprise of a Doctor, MS (OBST & Gynae) and highly experienced Software professionals, who know all the medical & software development terms and have the ability to drive the software in a minute as per the needs of the organization. The company also hires experts from other fields while designing the healthcare application software.

Our tryst with the healthcare industry began right from the inception of the Company itself under the guidance of Dr. Upma Birla (MS Gynaecologist), Managing Directors and Mr. Shrinivas Birla, Chief Executive Officer. With expertise in healthcare domain, information technology and management, the company today has over 10000+ satisfied customers across the World. In fact team Birlamedisoft's solutions are now a favourite amongst various Hospitals, Diagnostics centres, Laboratories, Clinics, Pharmacies and many more healthcare organizations.

What We Do

Endeavouring to innovate offerings including Hospital management, Diagnostics and Laboratory management, Blood Bank management software, PACS software and a complete range of health care management softwares. Team Birlamedisoft builds each software with the aid of cutting age technologies and also provides a user friendly interface to make it easy for the doctors to perform their tasks.

Birlamedisoft Pvt. Ltd.
Healthcare Software Solutions...

Strategy

Vision

"Our vision is to empower every Healthcare Professional with the 'Power of the Computer'. We make computer software that is Usable, Comprehensible and Affordable to the Healthcare Professionals, running small or big practices anywhere in the world."

Mission

Talking about the company's mission, the CEO, says, "Our mission is to write 'Doctor Friendly' programs for Healthcare Professionals and to make Birlamedisoft a ubiquitous healthcare software brand that is synonymous with the best in quality and the most useful healthcare software programs. It has to be the brand of choice.

Core Values

- **Integrity**: We are principled, honest, and ethical, and we do the right thing for those we serve.
- **Trust:** We count on and support one another individually and as team members.
- **Excellence:** We perform at the highest level, always learning and looking for ways to improve.
- **Accountability:** We accept responsibility for our actions, attitudes, and health.
- **Mutual Respect:** We embrace diversity and treat one another with dignity and empathy.

Birlamedisoft Pvt. Ltd.
Healthcare Software Solutions...

Business

Birlamedisoft is delivering healthcare solutions to make smart hospitals with top of the line web enabled HIS software & hospital consultancy services which will give additional helping hand for hospitals to benefit from smart hospital concepts where the gap between patient and the doctors will reduce..

Business Strategy

Birlamedisoft is committed to creating and maintaining a culture that continually reinforces our high ethical standards.

Economic Intent

Increase in productivity, reducing thefts, increase into business revenue, and increase into market presence. Like many more advantages are available to make a Smart Hospital.

Softcom Business Solutions Ltd (Kenya)

Edward Matu
CEO & Founder
Softcom Business Solutions Ltd
matu@softcom.co.ke

Softcom's Business Solutions Ltd is a company based in Kenya that focuses on healthcare and IT Solutions. Softcom has been in partnership with Birlamedisoft Pvt Ltd for more than 3 years.

Birlamedisoft innovation of Quanta3 (HMIS) could not have happened at any other better time than now.

Quanta3 HMIS has revolutionalized the Health industry by automating more than 5 Government Hospitals, Private Hospitals and NGO's in Kenyan.

Quanta3 which is an ERP Health Solution is an amazing software that has been designed to be user friendly and easy to navigate. Using Quanta3 has made hospitals work with fun and easy.

Because of Quanta3, Hospitals in Kenya installed with it no longer falls behind in returning their reports to the Government.

This has finally made the Kenyan Government to permit it within their hospitals.

The system support is excellent.

Ved Hospital (Mumbai)

30 June 2015

To whomsoever it may concern

This is to certify that we at Ved Hospital, Kalyan has installed Birlamedisoft 'Quanta WebHIMS (Version 3.0)', a completely advance, web based Hospital information system.

The software is robust and user friendly. It has full connectivity access on both on Intranet & Internet. We are able to access MIS of all Hospital branches from centralized location. All hospital departments are fully computerized and centrally connected.

The support centre of Birlamedisoft is very courteous & it provides round the clock services for smoothly functioning of the software.

I am fully satisfied with 'Quanta WebHIMS (version 3.0)' software and recommend the software to other hospitals.

I extend my full support to Birlamedisoft and their staff for all their future endeavors.
